

# Attaching the TSP700/TSP700II splash proof cover

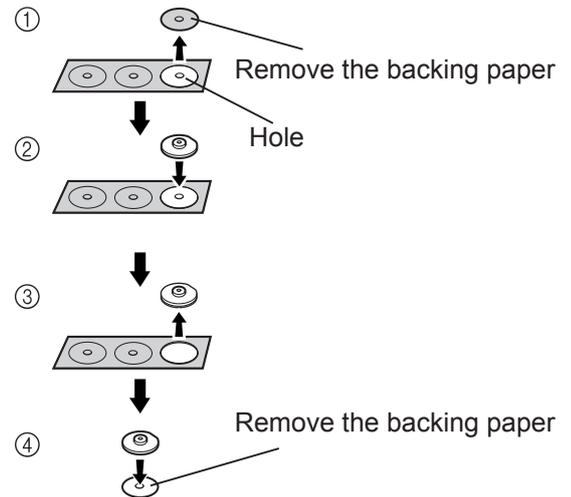

**1. Unpacking :** Confirm that all accessories are included.

## 2. Attachment procedure :

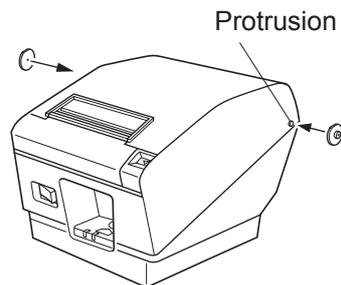

### 2-1. Attaching the double-sided tape

- ① Remove the backing paper from the upper surface of the tape (the printed side).
- ② Place the bosses on the double-sided tape so that its holes are aligned with the boss holes, and then attach the tape.
- ③ With the contact sheet stuck in place, remove the bosses from the double-sided tape.
- ④ Remove the backing paper from the underside of the tape.

### 2-2. Attaching the bosses

Align the two bosses with the protrusions on the left and right hand side of the printer cover and stick them in place.

### 2-3. Attaching the splash proof cover

- ① Align the splash proof cover with the center of the boss holes to attach it.
- ② Check to ensure that the splash proof cover opens and closes smoothly.
