

mC-Label2

ALL-IN-ONE

LABEL & RECEIPT PRINTING

The new 2" MCL21 Label printer designs for compact stations. Featuring **300 DPI high-resolution printing**, it ensures crisp text, sharp barcodes, and precise graphics — perfect for retail, logistics, healthcare, and hospitality applications.

Compact Design, Big Convenience

This printer's space-saving design with front paper access is perfect for tight spots like under shelves, making paper changes easy. It handles 102mm label rolls, reducing how often you need to replenish. Get maximum convenience in a minimal footprint.

Economical, Sharp Prints

Cut costs with linerless labels and a reduced print area. The 300dpi resolution means more info on smaller labels, and a paper-saving function minimizes waste. Achieve clear, efficient printing while saving money.

Versatile Connectivity, Broad Use

This printer handles diverse paper, from strong adhesive to receipt paper. An adjustable holder fits various roll widths. With multiple interfaces like USB, Ethernet, Bluetooth®, and Wireless LAN, it seamlessly connects to almost any environment.

MODEL		MCL21CWBI	MCL21CI	MCL21CWBI LBL	MCL21CI LBL
INSTALLATION		Horizontal (Front Paper Exit / Front-opening Paper Replacement Structure)			
DIMENSIONS/ WEIGHT		98 x 185 x 145.5 mm (W x D x H) Approx. 1.6 kg (main unit only)
